

SEYED MEERAN

Front-end // User Interface Developer

imsaf.com • hello@imsaf.com • (91) 99401-33303 • linkedin.com/in/sydmeeran

I'm a Full-Stack Web Developer with a focus on Front-end Development, having more than 7 years of experience in both development and design. My expertise is grounded in the intersection of *technology* and *design*. Highly motivated, flexible and focused on helping agile teams with UI development for large scale CMS websites or client-side web apps.

Work Experience.

Shihabs Design / Senior Frontend Developer (Partner)

Bangalore / April 2014 - Present

Created a solution to reduce development time, decrease cross-browser compatibility issues, increase support to multiple devices by adopting responsive design techniques; with a mobile first approach along with new tools and libraries. Architected highly sophisticated frontend web-applications while building independent and reusable UI components.

My responsibilities also includes identifying new tools/technologies and ensure best practices; mentoring and training junior engineers. And further I develop the processes, automation workflows and standards for the team.

Eventjini.com / Lead UI Developer

Chennai / August 2012 - January 2013

Eventjini is an event management and administration software company founded with the idea that managing events can be painless and easy enough for non-professionals to run large scale events.

My responsibilities at Eventjini was to design, develop and maintain web application interface for event managers and stakeholders. And also designed and developed micro-sites for local events & shows.

Netgross Technologies / Web Developer

Chennai / January 2010 - February 2012

Netgross was my first job out of college where I worked my way up to a lead web developer. I was chosen to work in the company's web design department and my responsibility ranged from creative design to code implementation.

Imsaf.com / Freelancer

Chennai / August 2009 - Present

Ever since graduating from college, I've been personally working as a freelancer. Working as a freelancer during my free time gives me more chances to do what I love and truly passionate about.
